

Dear National Federations and ECA representatives.

It is with deep regret that we have to announce the cancellation of the 2020 ECA Junior and U23 Wildwater Canoeing European Championships - Solkan 2020.

After many attempts and countless scenarios we have realised that the current and ongoing Covid-19 situation is unpredictable. This forced us to accept the final decision. The decision was taken in accordance with all the statements and confirmed by all the involved parties.

The ECA and national canoe federations around the world have always placed the health of participants as the number one priority when assessing the viability of canoe events this year. The Championships Organising committee shares the same view.

We truly believe that we will share emotions in the upcoming canoe events soon.

Boro Šavli
